DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with May Lin DeHaan on October 13, 2005.

1. The application has been amended as follows:

- In the Claims:

1. (currently amended) A surround sound system, comprising: a surround sound tower being vertically disposed; a base plate being horizontally disposed; and means for angularly positioning the surround sound tower on the base plate, the surround sound tower being mounted on, and normal to, the angularly positioning means, wherein the angularly positioning means comprises: means for indicating an angular rotation of the surround sound tower relative to the base plate; and means for facilitating rotation of the angular rotation indicating means.

2. (canceled)

3. (currently amended) A system, as recited in Claim ~~[[2]]~~ 1, wherein the angular rotation indicating means comprises a pointer plate having a visible marking, wherein the facilitating means comprises a plurality of ball bearings, and wherein the base plate comprises a plurality of angular indications.

11. (currently amended) A surround sound method, comprising: providing a surround sound tower being vertically disposed; providing a base plate being horizontally disposed; and providing means for angularly positioning the surround sound tower on the base plate, the surround sound tower being mounted on, and normal to, the angularly positioning means, wherein the step of providing the angularly positioning means comprises the steps of: providing means for indicating an angular rotation of the surround sound tower relative to the base plate; and providing means for facilitating rotation of the angular rotation indicating means.

12. (canceled)

13. (currently amended) A method, as recited in Claim [[12]] 11, wherein the angular rotation indicating means providing step comprises providing a pointer plate having a visible marking, wherein the facilitating means providing step comprises providing a plurality of ball bearings, and wherein the base plate providing step comprises providing a plurality of angular indications.

Allowable Subject Matter

2. Claims 1, 3 – 11 and 13 – 20 are allowed.

The following is an examiner's statement of reasons for allowance:

- The references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations discussed in the previous Office Action mailed on March 3, 2005, and further comprising the limitations

of **(With respect to claim 1)** wherein the angularly positioning means comprises means for indicating an angular rotation of the surround sound tower relative to the base plate; nor **(With respect to claim 10)** wherein the angularly positioning means comprises means for indicating an angular rotation of the surround sound tower relative to the base plate; and wherein the base plate comprises a plurality of angular indications; nor **(With respect to claim 11)** wherein the step of providing the angularly positioning means comprises the steps of: providing means for indicating an angular rotation of the surround sound tower relative to the base plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
